💼 Front-End Web Developer

Passionate and detail-oriented front-end developer with a strong foundation in HTML, CSS, JavaScript, and React.js. Experienced in building modern, responsive web applications with clean UI/UX using Tailwind CSS and Firebase. Adept at turning designs into interactive experiences and integrating APIs for dynamic content.

🛠️ Skills

- **Languages & Tools:** HTML, CSS, JavaScript, ES6+, React.js, Tailwind CSS, DaisyUI

- **Frontend:** Responsive Design, React Router, Components, Hooks

- **Backend (Basic):** Node.js, Express.js, MongoDB

- **Authentication:** Firebase Auth (Email/Password, Google)

- **Other Tools:** Git & GitHub, Vite, Netlify, Firebase Hosting

- **Soft Skills:** Problem-solving, Team Collaboration, Fast Learner

---

💻 Projects

🌿 EcoRoots – Sustainable Marketplace

Tech Stack: React, Tailwind CSS, Firebase, DaisyUI

- Developed an eco-friendly e-commerce web app featuring sustainable products

- Integrated Firebase Auth, product filtering, cart system, and payment simulation

- Live site: https://eco-roots-ed2f9.web.app

🚗 Take Your Car – Car Service App

Tech Stack: React, Tailwind CSS, Firebase

- Users can book car services and view status updates

- Built a clean UI with routing and Firebase-based authentication

- Live site: https://take-your-car.web.app

📚 Education

Diploma in Refrigeration and Air Conditioning Technology
(Also pursuing web development professionally)

📚 Bootcamps

Programming Hero – Complete Web Development Course (with Jhankar Mahbub)

- Learned full-stack web development including **HTML**, **CSS**, **Tailwind**, **JavaScript**, **React.js**, **Firebase**, **Node.js**, and **MongoDB**

- Built real-world projects like e-commerce, service platforms, and authentication systems

- Gained hands-on experience with **REST APIs**, **JWT**, **CRUD operations**, and **responsive design**

🎯 Career Goal

To secure a **front-end web developer** position where I can contribute my skills in building visually appealing and high-performance web applications, and grow as a full-stack developer.

📂 Additional Info

- Available for remote/in-office roles
- Open to internships or junior front-end positions
- Fast learner with real project experience
